<ul style="list-style-type: none"> • Suitable for most Industrial and Commercial Applications • Dockyards and ship building • Power stations • Factories • Construction • Forges & Mining • Processing plants • Military Installations • Warehouses • Marquees & Events • Exhibition halls • Hospitals • Temporary Buildings 	<ul style="list-style-type: none"> • Hire Companies • Construction Firms • Procurement Managers • Facility Management • Wholesalers & Resellers • Large Industrial Units 	<ul style="list-style-type: none"> • The industry standard Fireflo range of portable infra red space heaters and fan heaters is a fixture in many of the worlds leading hire fleets and industrial supply catalogues. Designed using the very latest in heating and airflow technology the range includes infra red heaters, standard fan heaters and high volume machines suitable for ducting through multiple outlets or long distances. All built to withstand industrial use using the same high spec of materials and production methods this extensive range has something to suit every application and is an ideal safe, clean, fume free alternative to gas and diesel. • The Super Industrial Range offers some phenomenal statistics - upto 125kW of heat, 100°C (heat rise) in a single pass, 5000pa of pressure, 10,000m³/hr and can be ducted over 100m - and is perfectly comfortable providing heat in place of, or in addition to an existing heating system. The standard multi-stage controls can be adapted to suit most requirements so that constant airflow and temperatures are maintained.
