 RG308/26 Heater  Easy to use remote control	Available in 230v 13A and 110v 32A versions Heat Output (kW) 2.8kW Heat settings 1.4kW/2.8kW Colour LCD panel shows ambient room temperature 24 hour programmable timer Easy to use remote control ERP compliant with eco mode Built in tilt switch for added safety Adjustable thermostat 15°C to 45°C Highly polished aluminium reflector for optimum heating and safety Stylish appearance with a rugged all steel industrial body Fully portable with 4 swivel castors for easy manoeuvrability Dimensions (Body) WxDxH (mm) 560x490x870 (420mm depth with wheels) Weight 16kg	The all new RG308/26 infrared heater provides instant, clean and odour-free heat, making it ideal for targeted heating of people or objects. Unlike conventional heaters that warm the surrounding air, its infrared elements heat solid objects directly, delivering exceptional efficiency with up to 95% of the input energy converted into heat output. For added convenience and control, the RG308/26 features an LCD display showing the ambient temperature, a 24-hour programmable timer, remote control and an energy-saving Eco mode. A built-in tilt switch automatically shuts the heater off if it is accidentally knocked over, providing additional peace of mind. Fitted with four swivel wheels, the RG308/26 is also easy to manoeuvre and position wherever targeted heat is required.

 Ideal for a host of industrial applications	 Easy to use LCD programmable controller
